FELIX LUIS A. FAUSTINO

(+63) 960-415-8396 | felixluis.faustino@neu.edu.ph | Quezon City
LinkedIn | GitHub

SKILLS

Languages: Python, Java, PHP, HTML, CSS, Javascript, SQL
Frameworks: React, Laravel, Tailwind CSS, Bootstrap
Tools: Visual Studio Code, Google Antigravity, Claude Code, Google Colab, Git, Github, Supabase
Technical: Object Oriented Programming, Web Development, Data Analytics, Machine Learning

PROJECTS

Student Disciplinary Management System (Website, GitHub) **Apr 2026 – May 2026**

- Created the full-stack mobile application using React + Tailwind; Supabase for backend operations.
- Utilizes OCR technology to extract student credentials from physical IDs, processed through a designed image manipulation pipeline to ensure clarity despite varying lighting conditions.

Product Management System (Website, GitHub) **Mar 2026 – May 2026**

- Led a dev team through the iterative development of a software with comprehensive inventory, pricing, monitoring and auditing functions of company products through Agile methodology.
- Orchestrated timely standups that delegated tasks, addressed concerns and held retrospectives encompassing UI/UX, client features, database logic, and user gating features.
- Developed an internal CRUD API allowing for decoupled logic and enhanced maintainability.

Syllabus and Curriculum Tracker (Website, GitHub) **Mar 2026 – May 2026**

- In charge of the full-stack implementation with React + Tailwind + Supabase.
- Dynamic access control allows users of higher authority (professors) to monitor,manage and advise users within their predefined section.
- Persistent mapping system with client-sided restrictions for course prerequisites.

Memorandum of Agreement (MOA) Manager (Website, GitHub) **Feb 2026 – Mar 2026**

- Employs a Rule-Based Access Control (RBAC) mechanism that only permitted registration and logins from certain email organizations.
- Unified essential information through a dashboard, supporting user-friendly controls such as filters, sorting, and searching through a responsive React+Tailwind frontend.
- Robust user management features that dictate roles, permitted actions, and audit trail.

CERTIFICATIONS

HackerRank React Basic (Certificate) - August 2026
Gemini Certified University Student (Certificate) - January 2026
Oracle Cloud Infrastructure 2024 (Fundamental, AI, Data) - December 2024
SQL and Relational Databases (Certificate) - October 2024

EDUCATION

New Era University **2023 - 2027**
Bachelor of Science in Computer Science
CHED (CMSP) Scholar, President's & Dean's Lister, 1.37 GPA
Association of Computer Science Students – Member (2023 – 2025)
